

**Hellen N. Atiol**  
**Class of 2005**

Hellen is a person who is caring and supportive to those around her, and because of that she is always a pleasure to be around. She can be daring and willing to step through fear, as we learned when she decided to sing a solo number at our 2005 winter concert, a first for her. We'll miss her courage and uplifting influence.

**KVA Activities**

While at KVA, Hellen was involved with the student production of *The Kids of Swing*. She attended drama and dance workshops and participated in the public speaking workshops given after hours at KVA. She was a member of the Student Council, Homework Club, and the Running Club.

Her outside activities included youth choir, L.O.V.E., involvement in the Wee Care Developmental Centre, and volunteerism at the IWK senior home.

**Current and Future Activities**

Hellen is in her first year at Dalhousie University. Her current goal is to take the MCAT test and go to medical school.

**Personal Creed**

Hellen describes herself as one who "is positive, always looks at the good side of things," and "allows everybody into her world."

**Comments on KVA**

"KVA is an awesome school that one cannot forget. There is room for absolutely everyone. You work hard, and you learn a lot. It is a very friendly and respectful environment."
